

Finally...yes!

We returned home today from the police station in Zarqa, weary but rejoicing with our plastic coated residence permits in our hands! Thus, there has been light for us at the end of our eight month long tunnel of stress and instability. There are many factors that went in to the reversal of this decision, more of which we will share in our next news letter.

But to you, our faithful family and friends, we want to give a grateful thank you for your prayers, emails and calls of support, asking about us, etc. Those things kept us going on a daily basis while the plans of God were being worked out “behind the curtain”. Please keep the general situation here in your prayers, as difficult decisions are still impacting other faithful servants.

With much appreciation,

Bob and Suzanne
